

City Starts Traffic Move

A crackdown on moving traffic violations in Canyon was ordered by the Canyon City Commission at a special meeting Friday morning. Included in the plan for reducing the number of moving violations is a request of the Randall County Sheriff's office for ticket-writing aid for the next month. Another part of the plan was the adoption of a schedule of fines similar to the schedule used in Amarillo.

The schedule of fines is available at the city hall. Ticket books have been issued to the sheriff's deputies for use in Canyon.

The vote to install the plan was two to nothing, with Commissioner Paul Lindsey abstaining. Lindsey explained that he favored the crackdown and the schedule of fines, but did not believe the situation warranted a request for aid from the sheriff's office.

Rites Sunday for S. H. Whitaker

Funeral services for Sim Hillard Whitaker were conducted Sunday afternoon in Warren-LaGrone Funeral Chapel by the Rev. Raymond Bowlin, pastor of the Avondal Baptist Church.

Pallbearers were Dr. A. K. Knott, W. Mitchell Jones, Dr. Joe Findley, Dr. Ford Fronabarger, Dr. W. H. Juniper and Dr. Crannell Tolliver. Burial was in Dreamland Cemetery.

Mr. Whitaker, 69, a teacher in the Wilson schools and a graduate of West Texas State, died here Saturday. He was born Aug. 12, 1888.

Survivors include his wife, Mrs. Mary Lillian Whitaker, Wilson; his mother, Mrs. G. W. Whitaker, Muskogee, Okla.; two sons, Freeman Whitaker, Ukiah, Calif., and Mantic Whitaker, Oklahoma City; four daughters, Mrs. Irene Weaver, Chickasha, Okla., Mrs. Patsy Gunter and Mrs. Helen Dabney, both of Concord, Calif., and Mrs. Bobbie Thompson, Vallejo, Calif.

Five sisters, Mrs. Ina Balch, Muskogee, Okla., Mrs. Edna Burmeister, Chickasha, Mrs. Jewell Woodward, Canyon, Lydia Whitaker, Darrouzett, and Mrs. Naomi Cooper, Oakland, Calif.; and two brothers, Dale Whitaker, Dalhart, and Byron Whitaker, Dallas.

Marching Contest Set Tuesday Night

The Region XI Interscholastic League Marching Band Contest will begin at 6:45 p. m. Tuesday in Buffalo Stadium with 39 bands from the Panhandle participating.

The contest had originally been scheduled for Oct. 22, but was delayed because of flu in the competing schools. Admission to the contest is 50 cents for adults and 25 cents for students.

'Show of Shows' Set Thursday

The rollicking good humor of "Oklahoma!", the romantic ballads of "Porgy and Bess," and the enchanting music of "Showboat" will be featured Thursday at 8 p. m. at West Texas State College as the music department presents "Show of Shows."

The show, which will be produced by members of the Buffalo Band and Kappa Kappa Psi, national band fraternity for men, will be presented in the Education Building auditorium. Price of admission has been set at \$1 for adults and 50 cents for students.

Represented shows and featured singers will be "Showboat," Carroll Davis of Quanah, Janice Ruth of Dalhart, Roy Lowe of Amarillo and James Restine of Amarillo; "Porgy and Bess," Debra Devenport of Canyon, Tommy Culppeper of Hereford, David Whatley of Pampa, and Lowe; and "Oklahoma!", Joann Stanaland of Tulia and Bennie Gollehon of Dimmitt.

Professor Barron Here Tuesday To Offer Jaycee-Sponsored Show

PROF. RUSSELL BARRON

Heart Program Reset to Nov. 14

A county-wide heart education program scheduled for Nov. 5 has been postponed until Nov. 14 because of conflicts. The place for the meeting will be announced later.

The program will be sponsored by the Randall County Home Demonstration Council in cooperation with the Randall County Heart Association.

Mrs. Mattie Mann Rites Held Sunday

Final rites for Mrs. Mattie Effie Mann were conducted Tuesday afternoon in Warren-LaGrone Funeral Chapel by the Rev. T. Winston Wilbanks, associate minister of Westminster Presbyterian Church in Amarillo.

Burial was in Dreamland Cemetery.

Mrs. Mann, 73, died Oct. 21 in her home at 1209 20th Street. She had lived here 18 months, moving here from Amarillo where she had lived 28 years. She and her late husband, J. N. Mann, founded Mann's Bakery.

Survivors include a daughter, Jamie Mann, Canyon; a son, Neal Mann, Amarillo; and two brothers, Gordon Fletcher, Chicago, and James Fletcher, Buffalo, N. Y.

Proceeds from the appearance of Hypnotic Marvels, a stage show featuring Prof. Russell K. Barron, noted hypnotist, will be donated to the Community Center Fund, the Canyon Jaycees have announced.

Prof. Barron will be presented Tuesday night in the West Texas State Administration Building auditorium. Tickets for the show are available at the Canyon Drug, Johnnie's Humble Service, J. J. Walker Prescription Lab, Canyon News, Wayne Wirt Electric and Dan's Fifth Avenue Store and from members of the Jaycees.

Prices are 90 cents for adults and 35 cents for children under 12. An American by birth, Prof. Barron has traveled throughout the world studying the application of therapeutic hypnosis. He will demonstrate various phases of hypnotism, with one of the demonstrations being the famous age regression—the system used in the "Bridey Murphy Case."

Prof. Barron has appeared on the Ed Sullivan, Gary Moore and Art Linkletter national television shows. His hypnotic demonstrations here will be shown with local citizens.

Mrs. Alma Low Dies In Daughter's Home

Mrs. Alma Bertie Low, mother of Mrs. Frank Morgan, died Wednesday in Mrs. Morgan's home here. She had been here since Sept. 15, and lived in Cumby, Texas.

Funeral services were conducted in Commerce. Arrangements here were under direction of Warren-LaGrone Funeral Chapel.

Born Feb. 6, 1878, in Alabama, Mrs. Low was a member of the First Baptist Church in Cumby. She was 79.

In addition to Mrs. Morgan, survivors include three other daughters, Mrs. R. Ridley, Dallas, Mrs. J. L. Miller, Kilgore, and Mrs. Ardis Stamper, Tulsa, Okla., former house mother in Cousins Hall; two sons, Buford Low, Amarillo, and Dr. J. Edwin Low, Fort Worth; four step-daughters, Mrs. C. M. Pickens and Mrs. Ray Pickens, both of Greenville, Mrs. J. M. Dean and Mrs. Joe Germany, both of Dallas; one step-son, Dale Low, Amarillo; 18 grandchildren and 14 great-grandchildren.

Roses in the Snow

When Canyon woke up to nearly two inches of snow on the ground Friday morning, a paradox was ready for those who took the time to see it. Above the wet, freezing snow were flowers in bloom—even roses that looked like spring rather than winter. The freeze did not catch flowers which were unprotected, but the moisture added to the woes of farmers who have been unable to get out into the fields to harvest grain sorghums and cotton. The drying trend this week may allow harvesting to start in some parts of the county by the end of the week.

Panel Picked for International Discussion at BIT Monday Night

The panel of three persons which is to discuss disarmament Monday evening at the international relations program in the Branding Iron Theatre, has been announced by Dr. Ples Harper and Dr. Ima Barlow, who were selected by the representatives from seven Canyon organizations to plan the program.

The discussion begins at 7:30 p. m. and is being sponsored by the American Association of University Women, Rotary Club, Lions Club, Jaycees, Woman's

Book Club, Sue Hite Club and the Junior Woman's Book Club.

On the panel are Richard A. Steele, Mrs. Dan Sanders and Lewis P. Fields. Mrs. Grace Warwick will act as moderator for the panel which will discuss disarmament from the domestic, international and military points of view.

Mrs. Sanders, mother of two children, teaches history and government at Canyon High School. Formerly she taught English at West Texas State College. At present she is president of the Canyon chapter of AAUW.

Steele, assistant professor of government at WT, handles work in the field of international relations and comparative governments with emphasis on the Asian governments.

Born in the Far East where he lived until he was of age, Steele joined the Army in 1942 and was assigned to military intelligence. From 1945 to 1949 he was a special assistant to W. H. Draper Jr., U. S. Military Governor in Germany during which time he prepared briefs on Germany and participated in all the Big Four conferences.

From 1949 until this year he served as chief secretary for the Tripartite Control Board for Germany and has been consultant for Pennsalt International Corporation.

The third member of the panel, Lewis P. Fields, of Amarillo, has

AAUW Study Groups Organize

Five study groups of the Canyon AAUW have been organized and are meeting. One of these groups, the French conversation group, held its first meeting of the year Oct. 28 with Agnes Charlton in charge.

Regular meetings for this group will probably be the first and third meetings, it has been announced. Any member interested in joining the French conversation group may contact Mrs. Charles Harter.

The first meeting for the international relations section will be Nov. 11. Muriel Davidson, who came to the West Texas faculty this year directly from England, will discuss her experiences in England. Chairman of this group is Dr. Ima Barlow.

The reading for pleasure groups are organized and there has already been one round of exchange of current books.

The other two study groups are to meet soon. Monday, the crafts group will meet in the high school art room at 4 p. m. with Claudia Neelley. November 13 is the date for the first meeting of the drama section.

The general meeting for November will not be held. Instead, the AAUW will join with other Canyon organizations in presenting the community international relations program on Nov. 4 at the Branding Iron Theatre.

Absentee Rate Dropping Here

Absenteeism in the Canyon Public schools has dropped from 18.6 per cent last Wednesday to 10.5 per cent Tuesday, and it appeared the flu epidemic had passed its time here.

While the absentee rate dropped from its high of nearly 30 per cent on Oct. 21, it rose again last Friday to 23.5 per cent. The sharp rise was attributed to the snow which fell.

By days the percentage of absentees were 18.6 on Wednesday, 17.5 Thursday, 23.5 Friday, 12.1 Monday and 10.5 Tuesday. The number of absentees was 229 Wednesday, 218 Thursday, 288 Friday, 149 Monday and 128 Tuesday.

Pipeline Hearing Set Next Tuesday

S. B. Orton, Jesse Hicks and John Plank were sworn in Tuesday afternoon as a special condemnation commission to assess a price to be paid R. O. McKay by the City of Canyon for crossing McKay's land with the pipeline to the Forrester waterfield to Canyon.

The commission set the hearing at 9 a. m. next Tuesday in the county courtroom. The pipeline will cross an 80-acre tract owned by McKay for a distance of 114 rods.

A. B. Haynes Dies in Ingram

Funeral services for the Rev. A. B. Haynes, pastor of the First Presbyterian Church here on three different occasions, were to be conducted this morning in the First Presbyterian Church in Ingram, Texas.

Dr. G. K. Rogers, Presbyterian minister of Houston, will officiate, assisted by Dr. Glenn L. Sneed, pastor of the church in Ingram. Burial will be in the Garden of Memories Cemetery in Kerrville.

The Rev. Haynes died Monday evening in Ingram following a heart attack on Thursday. He was 81. Since last July, he had been moderator for the Synod of Texas, Presbyterian Church USA. Prior to that time he had been moderator for the Houston and Austin Presbyteries.

Born Feb. 9, 1876, in Red Oak, Texas, he attended Trinity University and seminaries at Lebanon, Tenn., and Cincinnati, Ohio. His longest pastorate was at Woodland Church in Houston, where he served 17 years.

During his years of ministry he served in Silverton, McLean, Miami, White Deer, Hereford, Tulia and Littlefield in the Amarillo Presbytery as well as in Canyon.

The Rev. Haynes was pastor of the church here from 1904 to 1907, 1913 to 1915 and 1917 to 1918, and also served as pastor for the time of the union between the Presbyterian and Christian churches in Canyon.

Survivors include his wife, Mrs. Grace Haynes, two sons, A. B. Haynes Jr., Waco, and J. B. Haynes, Springfield, Ill.; two sisters and three grandchildren.

Rotarians Hear Student Panel

A panel of three Canyon High School students told the Canyon Rotary Club about "Youth in the Mechanical Age" at the regular meeting of the club Tuesday. Members of the panel were Ted Fowler, Bob Zachry and John Knittel.

Visiting Rotarians were Stoney Wall, John Oakes, Powell Combs, Leonard Showell, Charles A. Wolfelin, A. J. Foley, Francis Brown, Farris Oden and Tris Coffin, all of Amarillo. Guests were H. D. Taylor, Red Burn and Hank Brown.

Spanish Choir Here Wednesday

Opening the 1957-58 series of the Canyon Community Concert Association, the Pamplona Choir of Spain will appear in the West Texas State Administration Building auditorium at 8:15 p. m. Nov. 6. The choir is on its first tour of North America.

Before the choir appeared on the scene 10 years ago, Pamplona was famous mainly for its bull ring and its July Festival of the Bulla, in which the angry and dangerous animals are herded through the streets of the town by the daring younger male members of the populace.

The Pamplona Choir put Pamplona on the musical map of the world, and it is hailed as the greatest chorus of its size in the world. The chorus, composed of 16 voices and conductor, was founded in 1946 by its conductor, Luis Morondo, and its main objective was to present the long forgotten music of the 15th, 16th and 17th centuries.

The choir has since widened its

musical program to include Madrigals, Spanish Folk Songs, popular songs and contemporary choral music of every nation.

In 1950 their successes were crowned with the winning of the Grand Prize of Honor at the International Music Competitions in

Lille, France, a contest that involved 186 choruses from 17 different countries. Later they appeared at the International Music Week in Paris and conducted two successful tours of South America.

The Pamplona Choir is the first Spanish choral group of its kind to appear in North America.

In addition to the Grand Prize of Honor from Lille, the choir has been awarded the Buenos Aires Music Critics Award for 1951, Gold Medal of San Nicholas in 1954, Gold Medal of the Festival of Vincennes, France, in 1955, Special Citation of the Order of Civil Merit of Spain in 1955; and Silver Cup of the City of Algiers in 1957.

Sgt. Don R. Hicks, son of W. R. Hicks, graduated recently from the Dial Central Office Repair course at the Army Signal Corps school at Ft. Monmouth, N. J.

Mr. and Mrs. Truitt McGregor of Ft. Collins, Colo., attended homecoming Saturday.

It Makes the Difference

Organization makes the difference. One person alone can do a certain amount (some more and some less), while two people working together can do more than twice as much. The larger the group, the more that can be done.

You'd think that after a time, an organization would grow so large that it would lose its effectiveness through inertia and friction. But not so in this day and time. When an organization grows large enough, it can put pressure on the federal government so that the government is prodded into doing the organization's work.

A recent issue of the *Wall Street Journal* carried a comprehensive article about plans of the National Association for the Advancement of Colored People to move the integration battle from schools to industry. The article says that many Negro leaders are confident that classroom equality has been established, at least in principle, and are now aiming to "put added pressure on Government and employers to open more jobs barred to Negroes in stores and factories."

A committee has been established by the federal government, called the Presidential Committee on Government Contracts, which is charged with seeing to it that companies with government contracts do not discriminate in hiring workers. This committee says it has more complaints of discrimination in hiring from the North than from the South.

However, the NAACP officials have indicated the fight to do away with discrimination in hiring is going to be centered in the South because custom provides the cue for conflict, and through conflict the NAACP can reach their goals.

The plan for operation is this. Since the government has a regulation that companies with federal contracts may

not discriminate in hiring those companies will be forced to hire Negro employees through government pressure.

One official of the Presidential committee confides this: "Most companies cooperate easily enough. But occasionally you have to threaten them with loss of business—not so much an actual threat as a certain raising of the eyebrows or a shaking of the head."

Herbert Hill, labor secretary of the NAACP, is touring industrial areas now, according to the *Wall Street Journal*, urging Negro employees in defense plants to file complaints with the government when they think there's discrimination in hiring and upgrading.

We are not arguing the right of any person to equal job opportunity. What we are alarmed about is the use of government in forcing demands of one group against another—we still don't believe that legislation can change deeply believed ingrained habit.

But that's the way things work now. An organization grows until it can offer enough votes to force the federal government to knuckle under, and then it uses government power to enforce its demands.

As, for instance, the International Association of Machinists, AFL-CIO, until recently had two sets of locals in Atlanta—one for whites and one for Negroes. At first, they didn't want to put the locals together, but finally decided to.

"Some of the whites were a little hesitant about accepting colored members," acknowledges Jesse McGlon, regional vice president of the Machinists. "But now," he adds, "most members realize it will give us more power in the long run." That's what the *Journal* says.

Give the Machinists time, and they'll control enough votes to make the federal government do something, too. Organization is the difference.

Don't Forget

Next Tuesday, eligible voters in Texas will have the opportunity to register their feelings about three more proposed amendments to the patchwork state constitution. Don't forget to go by the polls during the day to use the opportunity.

The three amendments will 1) change the state employee retirement plan; 2) change the plan for payment of needy, aged persons not covered by the Social Security Law; and 3) create a Texas Water Development Fund for the development of water resources of the state.

The complete text of the three proposed amendments was printed in *The Canyon News* for four consecutive weeks in August, and every reader has had a chance to study them out.

The change in the retirement plan would allow the five per cent contribution of employees to the retirement fund to be taken from the entire salary instead of only the present \$3600, and it would allow the state to match the new amounts. It would allow the legislature to extend the retirement system to cover elective officers as well as appointive officers.

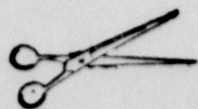

The change in the needy assistance payments would raise the amount to be paid by the state from \$42 million to about \$47 million. Of the additional funds, \$4.9 million would go for old age assistance, \$175,000 for the blind and \$525,000 for dependent children.

The water conservation plan would authorize issuance of \$200 million bonds to provide assistance in local development of water resources and would set up the Texas Water Development Board to administer the funds.

Don't forget to go vote. The polling places will be in the usual general election spots. Will you vote?

What Our Neighbors Say . . .

Scissor Snippings

George Dolan in the Fort Worth Star-Telegram: An oldtime cowboy remarked recently—slowly, so a reporter could get it down on paper word for word—that this stuff about a cowman's love for his horse was just so much sheep dip.

Western lore has had wives calling to husbands: "Landsakes, Buck, it's time you rode in. Your corn-bread and coon stew is gettin' cold. Come in and eat."

And husbands replying: "Keep yore apron on, Maw, I'll be in soon's I rub down Old Red and feed him."

The oldtimer scorned such scenes as fiction. What a cowman really loved, he said, was his hat

and his saddle. He might let his coon stew get cold while he oiled a saddle, but never while he pampered a horse.

★ ★ ★
Ben Ezzell in the Canadian Record: Mrs. Albert Price, who is a firm believer in planting by the moon, says she's all mixed up now that there are two moons in the sky!

We don't know what possible effect the Russian moon might have on killing Johnson grass or growing potatoes, but it's sure raised a lot of cain in Washington.

★ ★ ★
Harold Hudson in the Ochiltree County Herald (Perryton): We had

what we would call an ideal week end last week. The women may not understand it, but our idea of a perfect weekend is to spend it watching football games and playing golf. Jack M. Allen, Sidney Jines and this department watched the Quanah-Perryton game Friday night, drove on to Fort Worth, got up early and played 18 holes of golf at the Worth Hills course. Then we walked to the TCU stadium and watched TCU and A&M play football. After that game we drove to Dallas and saw the Rice-SMU game Saturday night. In between times we walked over the State Fair grounds.

I GIVE YOU TEXAS By BOYCE HOUSE

While I was editor of a county seat weekly in Arkansas, a lawyer had our shop to print a brief to be filed in a case which was on appeal. The circumstances were so unusual that perhaps you will be interested.

There was a railroad man—a brakeman, as I recall—who, with his wife, lived in Arkansas. His "run" carried him into Texas. After he died, it was discovered that he had also married in Texas. Neither woman had known about the other.

He had taken out an insurance policy, naming the Texas wife as the beneficiary. The Arkansas wife sued in an Arkansas court, it being her contention that she was the only wife as her ceremony had been performed first and that, therefore, the Texas marriage was bigamous. The Texas wife sued the insurance company in a Texas court.

The company, represented by the attorney who had us to print the brief, took the position that the Arkansas wife was not entitled to collect because she was not named as the beneficiary. The company also took the position that the Texas wife, although named as the beneficiary, was not entitled to collect, either, because she was not really the man's wife.

However, the lawyer for the company said he wanted to be fair about the matter and that his client would be glad to refund to the estate the amount of the premium which the railroadman had paid.

Both cases were tried. The Arkansas court gave a judgment in favor of the Arkansas wife. The Texas court gave a judgment in favor of the Texas wife. There was only one policy but the company found itself ordered to pay two judgments.

When I left Arkansas and came to Texas, the two cases were still pending on appeal and I never did learn how they came out.

When Abe Lincoln was practicing law in Springfield, a man came

TELEPHONE TALK

SIDELINE COACHING

Working with the coaching staff of W.T.S.C., we have set up a system of "high elevation coaching". A private line telephone is connected from the press box in the stadium to the coaching bench. The assistant coach stays on the press box end of the line during the game and gives the coach his view of the game from that angle.

A similar arrangement is provided for the visiting team if they want to use it. McMurry's coaching people tried it out and decided to install one at their stadium.

By the way, we've put a special flag on these circuits at our central office to be sure we don't get them crossed.

FOOTBALL FUN

Another football season is underway. If there are any fans around your house, it's likely that the radio and television sets will be working overtime for the next few months bringing the games into your home. It's the next best thing to having a 50-yard line seat.

Maybe you've never realized it but the telephone company plays an important part in bringing you these football broadcasts, as well as other radio and television programs you enjoy. We handle the transmission of programs from distant places for your enjoyment.

Telephone engineers have worked constantly through the years to improve these facilities. Today we use both cable and microwave networks to transmit these broadcasts.

And, of course, improved transmission means more pleasure from the programs for you.

This is another example of how the telephone company always seeks to bring you improved communications—in radio, television, on a local telephone call across town or a Long Distance call across the nation.

Getting back to football, have you attended any of the Canyon Eagles games this season? If not, why don't you plan to be at the next one. Better still, go to all the Eagle games this year. You'll enjoy them and the team will appreciate your support.

SAVE 1/3 ON OUT-OF-TOWN CALLS

Whether you're making a business call or just keeping in touch with members of the family in other cities, it's smart to place your Long Distance calls Station-to-Station.

You save money because Station-to-Station rates are about one-third lower than Person-to-Person rates. This means you can make three calls for the price of two.

And here's another Long Distance tip to remember: call by number—it's twice as fast.

Call by number. It's twice as fast.

NEWS LETTER

FROM CONGRESSMAN WALTER ROGERS
OF THE 18TH CONGRESSIONAL DISTRICT

The Furor Over the Supreme Court
In view of recent developments on a federal level and the requests of several people, I am reprinting the newsletter that I wrote in 1956.

Where did it all start?
Few people have taken the trouble to find out the history of the doctrine which seems to be causing so much trouble today. That is, the doctrine that the Supreme Court has the power to declare an Act passed by the duly elected officials of the people, to wit, the Congress of the United States, repugnant to the Constitution and therefore unconstitutional and of no force and effect, thus vesting in the Supreme Court the final veto power concerning the rules, regulations and laws by which our daily lives are governed.

It all started in 1801 immediately after Thomas Jefferson was sworn in as President of the United States. At that time the political parties were the Federalists on the one side and the Democratic-Republicans on the other side. The general philosophies of these parties were in keeping with the general alignments of thought as between Jefferson and Hamilton. The Jeffersonian doctrine was based upon a distrust of centralized government and the advocacy of confidence in the people's capacity to govern. The Hamiltonian philosophy supported a strong national government by a sort of

"royal purple" group who would have full control of the centralized powers and be able to govern without interference from the people.

At that time President Adams was leader of the Federalists, while Vice-President Jefferson was leader of the Democratic-Republicans. The Federalists had gotten in bad favor with the public and realized that they would be turned out of office in the Dec. 3, 1800, election.

They were correct. Thomas Jefferson was elected President at that time and prepared to be inaugurated on March 4, 1801. The Federalists, in an effort to perpetuate their power, undertook between the date of the election, Dec. 3, 1800, and the date of Jefferson's inauguration, March 4, 1801, to fill all open offices with Federalist followers.

The number one appointment in this plan went to John Marshall, President Adams' Secretary of State and a loyal Federalist. He was appointed the third Chief Justice of the United States Supreme Court.

There were a number of other appointments made by President Adams, among them being the appointment of a Justice of the Peace for the District of Columbia. The recipient of this appointment was William Marbury, who was appointed on March 2, 1801, just two days before Jefferson's inauguration.

In the confusion of the change of Administrations, the then Secretary of State, John Marshall, signed and sealed the appointments, but apparently got busy on other matters and forgot to issue the commissions to several appointees, including William Marbury. Jefferson, upon inauguration, had instructed his Secretary of State, James Madison, to withhold the issuance of these commissions.

Whereupon, Marbury filed suit against James Madison, the new Secretary of State, in the Supreme Court of the United States. Thus was born the famous case of Marbury vs. Madison, with which all students of the law are familiar.

Since the Supreme Court's power to take original jurisdiction in cases is limited to a very narrowly defined class of cases, there was much discussion about Marbury having filed his suit in the Supreme Court rather than in a trial court.

The filing of the case in the Supreme Court created a situation whereby John Marshall, Chief Justice of the Supreme Court, was called upon to decide whether or not the Court could compel James Madison, Secretary of State, to issue a commission that Chief Justice John Marshall, while serving as Secretary of State John Marshall, had neglected to issue.

Since the Marbury case was clearly outside the original jurisdiction of the Supreme Court, the normal procedure would have been for the Court to decline to hear the case and permit the complainant to file his

suit in a proper court.

However, for some reason Chief Justice Marshall brought into the picture the Judiciary Act of 1789, an Act to control the procedures in federal courts. He indicated that, although the Supreme Court could not hear the Marbury case under the Constitutional restrictions, there were provisions in the Judiciary Act, a statute passed by Congress, that would permit the Supreme Court to hear the case.

He then proceeded to hold that, because according to his conclusions the Judiciary Act was in conflict with the Constitution, the Judiciary Act became unconstitutional and therefore void. This action on the part of Chief Justice Marshall has been interpreted as a master stroke of a devoted advocate to centralized government. It created the doctrine that the Supreme Court had the power to declare Acts of Congress unconstitutional—power which was bitterly opposed by Jefferson's followers.

Had John Marshall held against Jefferson's followers on the Marbury case and had entered a judgment requiring Madison to issue Marbury a commission, there was a strong chance that Marshall might have been impeached. Many thought that Marshall realized this and thereupon conceived his idea of not endangering his position as Chief Justice, but at the same time, creating a strong weapon in the hands of advocates of centralized government.

This approach left the Jefferson followers in the position of having won the Marbury case, for which they could not complain, but of having had to accept, as a thorn with the roses so to speak, the establishment of a doctrine that vested the Supreme Court with final veto powers on all legislative actions.

It is interesting to note that in

Prexy Council Makes Recommendations To Texas Higher Education Commission

Recommendations concerning policies to be followed by the Texas Commission on Higher Education will be drafted early in November by the Texas Council of College Presidents which acts as an advisory committee for the commission.

The recommendations will be presented Nov. 15, and the presidents will meet with the commission in Austin in December to discuss their proposals.

Dr. James P. Cornette, president of West Texas State College, is chairman of a five-man committee assigned by the presidents' council to draft the recommendations. The committee will meet Nov. 4 to make a final draft to present to the advisory group Nov. 6.

The 35 years that John Marshall served as Chief Justice of the Supreme Court, he never again declared an Act of Congress unconstitutional.

It is also well to remember in this connection that as matters now stand, the laws passed by the duly elected officials of this land are in a strange position. These laws can be knocked down by the Supreme Court of the United States as being unconstitutional.

Yet, a treaty between this country and a foreign country, written and entered into by the Executive Branch of the government and duly approved by the Senate, is on a parity with, if not superior to, the Constitution.

But in any event, as the law presently stands, the laws passed by the Congress are subservient to such treaties as well as the Constitution, so you can imagine how far down this puts the laws of the several states.

Serving with Dr. Cornette are Dr. Logan Wilson, University of Texas, Dr. M. T. Harrington, Texas A&M, Dr. John Guinn, Texas Woman's University, and Dr. F. L. McDonald, Lamar Tech.

The group will recommend specifically the "appropriate allocation of functions among the 18 fully state-supported colleges and universities," and rules and regulations for the administering of provisions of one of the sections of the bill creating the commission.

The section in question directs the commission to make a "continuing study of the program and degree offerings of wholly state-supported colleges. It also asks the creation of no new department or offerings without prior approval of the commission."

Consolidation or elimination of "programs where such action is in the best interests of the institutions themselves and the general requirements of the State of Texas," is also in the section's provisions.

Business Head Is Featured Speaker

Dr. C. C. Callarman, chairman of the School of Business at West Texas State College, was a featured speaker at the West Texas Business Teachers Association convention Friday and Saturday in Wichita Falls.

Lucy Mae Yarnell, assistant professor of business, is president of the association. Four other instructors in business will attend the convention. They are Bob Griffith, Frances Watson, Leslie Henderson and Floyd Langford.

Auxiliary To Show Cathedral Glass

Hand blown glass articles crafted by the artisans who make the stained glass windows at the National Cathedral, Washington, D. C., will be on display Nov. 9 at the Little House of Fellowship, 306 17th St.

The Women's Auxiliary of All Saints Episcopal Church is sponsoring the display which will be between 10 a. m. and 6 p. m. "Everyone is invited to come and see the glass articles and have refreshments, which will be served all day," said Mrs. Harry P. Ball, auxiliary president.

Members of the auxiliary will be present to take orders for Christmas gifts for those who desire to do so after seeing the display which includes candlesticks, glasses, vases, bottles, cream and sugars and bowls in a variety of clear colors.

NOTICE TO BIDDERS

Sealed proposals for the construction of approximately 70,000 feet of 8", 16" and 18" Water Supply Line together with miscellaneous appurtenances and the moving of one steel ground storage tank will be received at the office of the City Secretary, City Hall, Canyon, Texas, until 10:00 a. m. November 19, 1957, and then publicly opened and read.

Bidders must submit a bond of five per cent (5%) of the total amount of the bid as a guarantee that the bidder will enter into the contract under the conditions set forth within ten (10) days after notice of award of contract. The minimum wages which shall apply on this work are the established rates for this area. The City reserves the right to reject any or all bids, to waive informalities and to accept the bid deemed to be the most advantageous to the City.

Specifications may be inspected or obtained at the City Hall, Canyon, Texas, or at the offices of McMorris & Associates, Consulting Engineers, 527 Amarillo Building, Amarillo, Texas, upon a deposit of Fifty (\$50.00) dollars which will be refunded only to each actual bona fide bidder upon return of the Plans and Specifications.

Taxes Discussed For Book Club

A discussion of taxes by Mrs. Ray Campbell and Mrs. O. L. Coleman was the program Oct. 23 for the Woman's Book Club which met in the Founders Club Room of the museum.

Mrs. Campbell based her talk on the income tax on an article in the U. S. News and World Report by T. Coleman Andrews, former commissioner of internal revenue. His article was entitled, "Why the Income Tax Is Bad."

In order that members might receive the full benefit of the report, Mrs. Campbell gave each member a copy of the magazine in which the article appeared.

Following Mrs. Campbell's discussion, Mrs. Coleman presented information on "How to Save on the State and Gift Tax."

Mrs. Lee Johnson, president, opened the meeting by leading the group in "The Lord's Prayer." Special recognition was given to Mrs. C. A. Pierle and Mrs. Clarence Thompson, guests, to new members, Dr. Hattie Anderson, Mrs. Mary Sligar and Mrs. Michael Morris, and to Darthula Walker, who has been absent at the meetings because of illness.

Reports were given on the Randall County Library and the community center. Edna Graham reported that 380 new books had been added to the library. Mrs. Dudley Moore Sr. reported on the progress of the community center.

Mr. and Mrs. J. W. Shook of Bentonville, Ark., attended homecoming and visited friends over the weekend.

Mr. and Mrs. Garland Cavitt and daughter, Kelly Leigh, of Dumas were visitors last weekend with Mrs. Ruth Hill.

By HUGH WILLIAMSON

Literally, the weather is great for ducks.

A lot of Texans, you may be sure, have been thinking it over, inasmuch as the duck season opens Nov. 1 and extends to Dec. 30.

Big rains this year have broken the drouth along the Gulf Coast, providing plenty of surface water for the birds. Conditions in the marsh areas of the upper coast are the best in 10 years.

There will be an excellent crop of such native waterfowl food as wild duck millet, smartweeds, duck potato, and pondweeds.

Along the lower coast, the duck prospects are also very good. October rains caused habitat conditions to improve rapidly.

Add to all this the fact that the duck breeding season in the North was a successful one, and you have every indication of good duck hunting in Texas during the coming season.

Many varieties of ducks come to Texas with the cool winds of Fall.

Of the various kinds, the mallard predominates. A grain-eater, the mallard's flesh has a mild flavor.

Fish-eating ducks have a stronger taste.

Biggest of the ducks available to Texans is the American Merganser, which may go to four pounds. Smallest is the green-winged teal, averaging three-quarters of a pound.

A duck hunter must know his birds — bag limits vary with the species.

How To Do It

What's the secret of duck hunting — or any wing shooting? Well, it takes a steady hand, a clear eye, and good coordination, of course, but it also takes a gun that fits the shooter.

With time and money, you can do business with gun specialists who will fit the gun to your particular needs.

You'll get all kinds of tests, including some in the field. At the end of a year or so you'll have your gun, which will fit you like an old shoe. It will cost you about two thousand dollars.

Most of us don't have that kind of moola. But we can take our time in selecting a weapon, try it out, borrow a gun from a friend, talk about it, and be sure, before we purchase, that the gun fits.

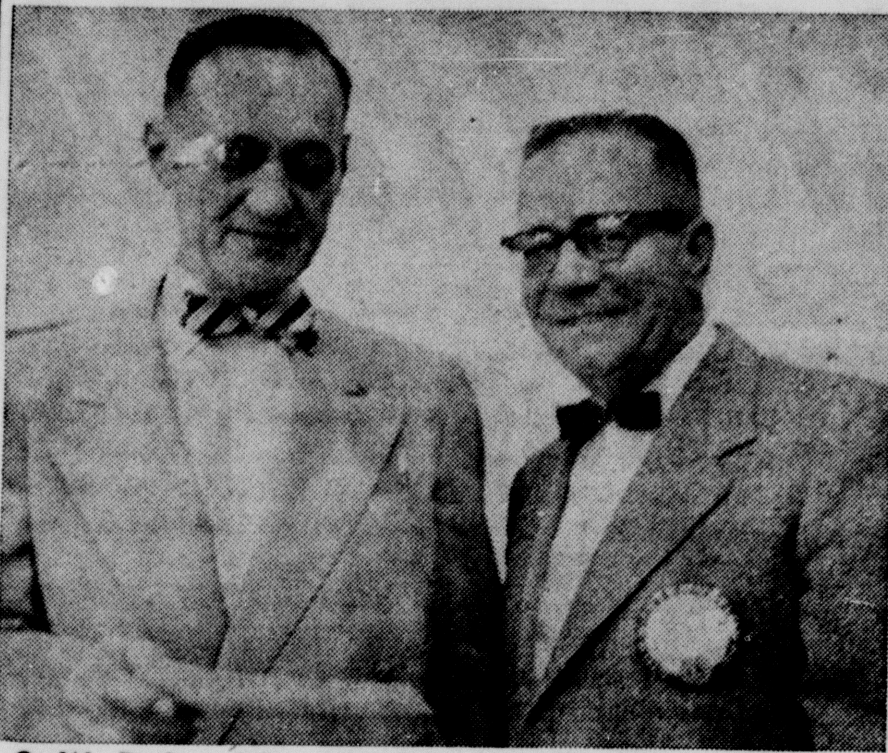

Then we can go duck hunting, and if all the factors are right we can get birds.

Practice Helps

It goes without saying that practice is one of the elements of accurate wing shooting. Some rounds of skeet, before the season opens should serve to sharpen the eye.

Another item is distance. A beginner is likely to blast away at ducks from afar, but a more experienced shooter will wait until they come closer.

At 12 yards, a duck looks bigger than a turkey. At 20 yards he shrinks to chicken size. At 30 yards, he's more like a pigeon, and at 40 yards, he's down to dove dimensions. Off there at 50 yards he's an English sparrow, and at

Pays Off Pledge

O. W. Parker, left, president of the Randall County Little League, receives a \$1,000 check from Rex Reeves, president of the Canyon Lions Club, as payment of the club's pledge to the Little League association.

60 yards, he's a hummingbird.

Pickrel in Texas

Did you know you can catch chain pickrel in Texas? You can. That would be at Caddo Lake, where this relative of the northern pike and the majestic muskellunge abounds.

The pickrel lives in quiet, weedy waters and grows to 26 inches or so, and four pounds. A hungry citizen of Caddo's cypress swamps, the pickrel will strike practically anything that moves. He especially likes flashy underwater lures and noisy topwater baits.

A mystery is where the pickrel goes in midsummer, but a good guess is that he seeks a deep, cool place and remains practically dormant. But in the Fall he perks up, and by November he is really ready for something to eat.

The pickrel, by the way, is a good eating fish. Skin him, remove bones, cut into narrow strips, dip in batter, and fry until well done.

Skier-Fishermen

After trouble between fishermen and water skiers on a California lake, the U. S. Forest Service has set up some restrictions.

Anglers and skiers have agreed to these regulations: Fishermen have the lake all to themselves on Saturdays, with no skiers allowed. Skiing is permitted from 10 a. m. to 4 p. m. other days, within boundaries marked by buoys.

Well, nobody wants to be regulated, but regulation will come to our Texas lakes if the fishermen and skiers can't get along with each other. They can because all it takes is courtesy, thoughtfulness and consideration of the other fellow.

Wilder Play Opens BIT Drama Season

Thornton Wilder's "The Skin of Our Teeth," a Pulitzer Prize winner, will open the West Texas State College drama season, according to William A. Moore, WT dramatics director.

The fantasy will be presented in the Branding Iron Theatre Nov. 21, 22 and 23, with curtain time each night at 8:15. Admission will be 75 cents for adults and 50 cents for students.

Casting is underway for parts. Technical direction will be by Robert L. Antrim, new instructor in speech.

A satire, Wilder's story is about the extraordinary adventures of the Antrobus family, which has suffered and survived flood, fire, pestilence, the seven-year locusts, the ice age, the black pox, and a dozen wars and depressions.

"The Skin of Our Teeth" is a tribute to all heroes and buffoons, like the Antrobuses, who have through the ages escaped a thousand calamities by the skin of their teeth.

After a successful run on Broadway, the play was revived in 1955 for a television show, starring Helen Hayes and Mary Martin.

NO PARAGON

"So you are engaged," said her friends.

"Yes."

"How romantic! Is he your ideal?"

"Heavens, no! Merely the best I could get."

THE HUSSY

"See that girl over there?"

"Sure—very pretty girl."

"She takes rings from men she don't even know."

"You don't mean it. How shocking."

"Fact—she's a telephone girl."

MAKING SURE

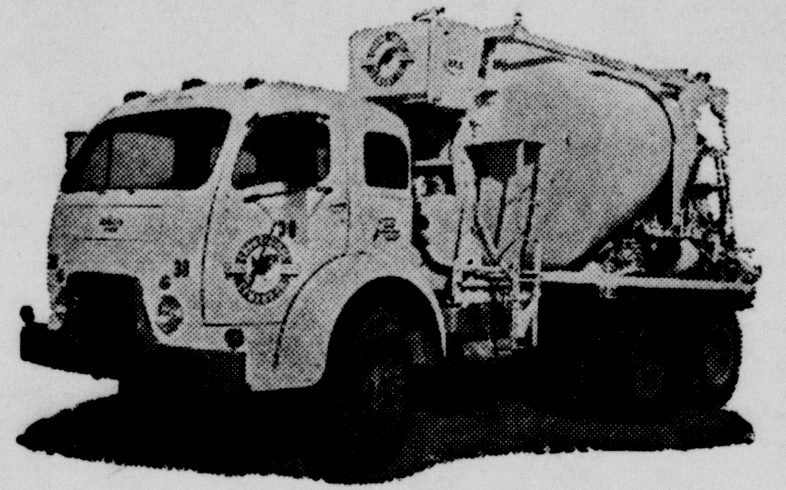

Quizzing a bunch of rookies, the sergeant asked, "Johnson, when you clean a rifle, what's the first thing you do?"

"Look at the number," the pri-

vate answered promptly.

"Now what on earth has that got to do with anything?" the sergeant demanded.

"Just want to make sure," explained Johnson, "that I'm cleaning my own gun."

Point of Veiw

Oh! This drippy dreary weather! These lessons, I'll never be able to master them! I wish I didn't have so much homework! Why do I have to . . . ?

Some people are just natural born complainers. They gripe from sunrise to sunset and never seem to tire of it. I wonder if a person who is always complaining ever gets any real enjoyment out of life?

One way to keep from complaining is to look for the beautiful things of life.

The beauty of God's world inspires. The pre-dawn hours when the dew drifts in the pale light, giving the world a mysterious atmosphere . . . the sun bursting into life as it slowly rises in the morning . . . the smell of earth after a light shower on a hot summer day . . . the sun again as it goes to sleep somewhere behind those purple plains.

Yes, your point of view makes all the difference in today's life, after looking at these works of art created by the greatest artist of all. One might feel ashamed that he once complained about today's work.

Talented English Actor Performs

Hedley Hepworth, considered England's most celebrated actor-of-the-platform, presented his one man theatre before the student body Thursday, Oct. 24.

Mr. Hepworth was born just 30 miles from Sherwood Forest in England, and knows quite well the area covered by Robin Hood. While still in grade school, he saw a man do impersonations and decided that was what he wanted to do. During World War II, he used his talents in the British Secret Service where he posed as a longshoreman for 18 months, making the taverns to uncover information leaks detrimental to the war effort and to find out if sailors and others were talking when they shouldn't. Not once was his make-up discovered.

After the war he went on the stage as a professional. Two years later he moved to the U. S. He makes his home in Chicago with his American born wife. Hepworth has been a citizen of the U. S. for three years, but tries to visit his English home at least every two years.

Mr. Hepworth has performed in almost every state, but says, "I have found my best audiences in Texas." Ours, he said, was one of the best.

On the stage Mr. Hepworth paraded before the eager eyes of the students famous characters from writings of Charles Dickens, Shakespeare and other great authors. Ebenezer Scrooge, Rip Van Winkle, a shy teen-ager and other characters came alive as he portrayed them with rare understanding and artistry. All costume and make-up changes were done in full view of the audience.

A trick wig to make the hair stand on end in fright, used for Ebenezer Scrooge, was made especially for Mr. Hepworth. No facial make-up was used. With the use of wig, coat, chain and dagger, he was able to portray an escaped convict. With the aid of these few properties, he changed himself so completely no one could recognize him as the same person.

Abc ghij klo? Op!

A! Bede? fgh ijk. Lmnop—ups what comes next? Have you ever tried the alphabet in a dramatic style? That's just what the speech class did under the direction of Mrs. Cecil Simms. In preparation for reading plays with the right voice qualities, each student did a dramatic production of our English alphabet.

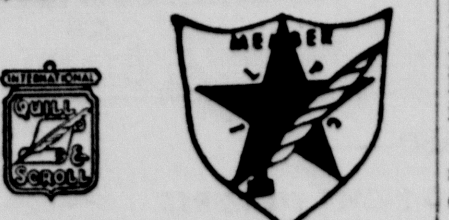

Imaginary tears flowed, sermons were preached, love was made, and a little boy shyly quoted a poem he half knew as the alphabetizers lost themselves in our dynamic awe inspiring alphabet.

To think, we supposedly learned the alphabet over 11 years ago and still can't use it!

FHA Classes Sample Meal

M-m-m food! The homemaking classes sampled a complete broiler meal cooked Oct. 22 by Miss Mary Lou Crump, Home Service Agent of the Pioneer Natural Gas Company.

The meal consisted of green bean bundles, sandwich burgers, bread sticks and golden spiced peach halves. All of the food was popped under the broiler with room to spare, and the meal was finished in about 30 minutes.

As an added attraction Miss Crump showed some of the new features of the two new gas ranges in the homemaking department. Something extra special is the thermal eye automatic top burner. One is able to set the burner at the temperature desired and it will maintain that heat by automatically cutting off and on.

Popcorn was popped in a skillet on the "brain burner," as it is sometimes called. Miss Crump dubbed the faithful skillet her automatic popcorn popper. With the help of the brain burner it might well be one. With this new burner many other controlled cooking appliances can be eliminated. This saves time as well as money.

Another handy gadget on one of the stoves is the glass warmer. This is a shelf which hooks onto the top of the stove and stands above the burners. This may be used as a cover and saves cleaning time and effort. Whisk and the glass is clean.

Myers Installed FTA Presidency

Graduates Theresa Mickey, 1956-57 FTA president, and LaVerne Riley, vice president, installed the D. A. Shirley FTA Club officers Oct. 21 for the school year 1957-58. Twenty-six members were accepted into the organization.

Officers installed were Barbara Kay Myers, president; Margaret Lee Johnson, vice president; Karen Sue Parker, secretary; Marcia Barker, treasurer; Donna Caskey, reporter; and Wynona Yarbrough, historian.

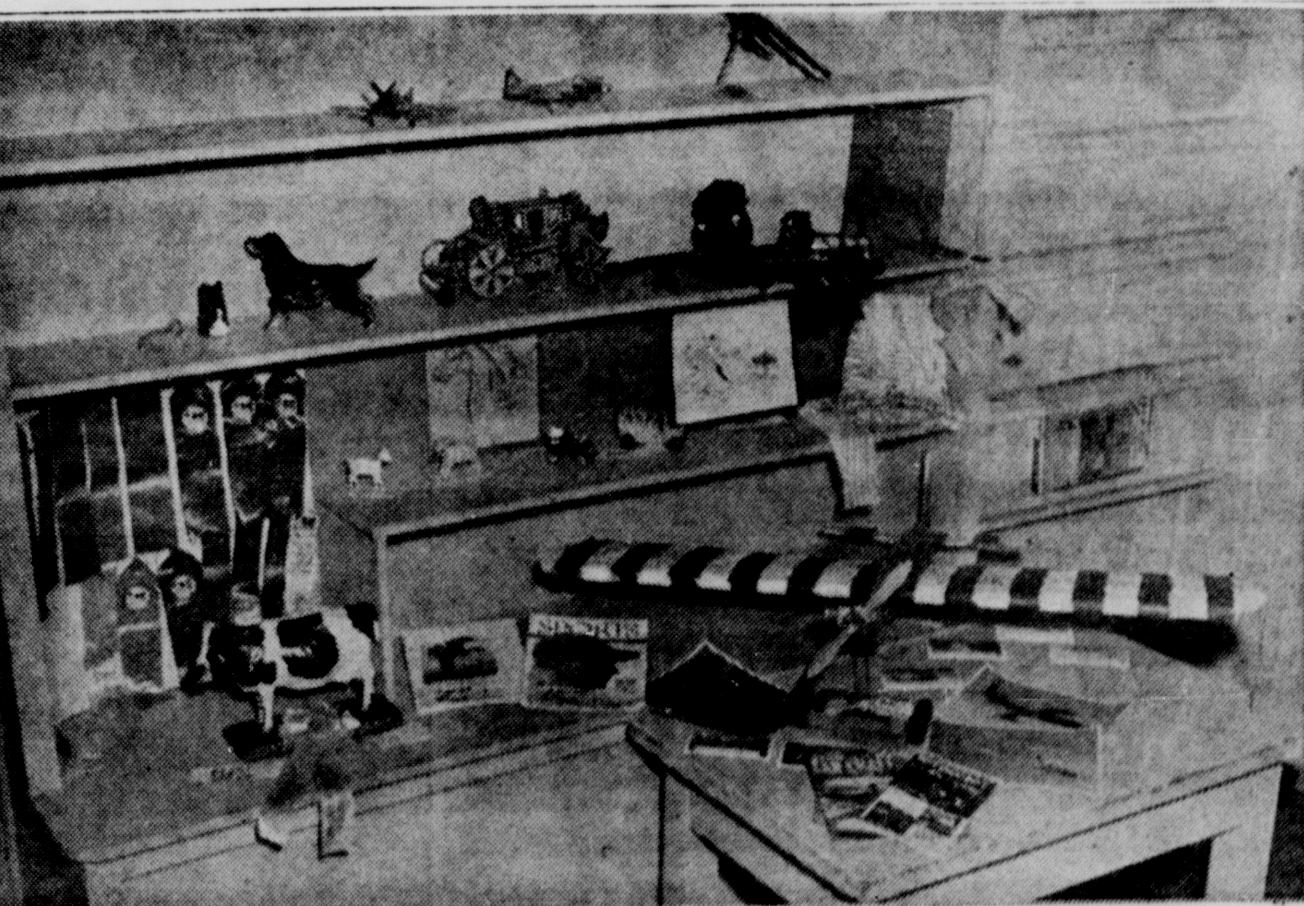

Each officer lighted a candle to represent her office. The lighting took place while Theresa Mickey read the duties of each officer. Refreshments of cookies and punch were served.

FALL

The wind is brisk and cold today. The rain is falling fast. This all reminds me of the fact That fall is here at last.

When the fires are all aglow My thoughts just turn one way, Of peanuts, popcorn, and good books.

I wish that fall would stay. Lavonee Patterson Freshman

"Beautify yourself," say girls of CHS. It is said, "to make ones self more appealing beauty what you have." In the picture above are three girls whose faces are made up to illustrate the fact that youth should make-down to emphasize natural beauty. No make-up detracts from natural attractiveness and too much make-up hides that attractiveness. From left to right are Elaine Downing, Mrs. McDonald, Joyce Ricketts, and Suzanne Lemons.

Writing Develops Into Hobby Show

Zoom! How did that plane get in the CHS halls? You would think senior high students had grown out of the toy stage. There it goes into the freshman English room, Miss Marilyn A. Payne's first period English class. A freshman hobby show? Oh! That explains it.

Enthusiastic students wrote short stories, essays and poems. Some of the stories were The North American Chipmunk, The Dancing

Make-Down

This freshman hobby show display was in the English classroom of Miss Marilyn A. Payne, instructor, last week. The articles, reading from left to right on the lower shelf, belonged to Peggy Sue Hales, Tommy Joe Platt, Robert Ray Henry, Weston Moore, Jimmy Don Harding; second shelf, Sally White, Robert Rogers, Beverly Richard, Jo Ann Thompson, Carolyn Glazener; third shelf, Kay Boydston, Carolyn Franklin; fourth shelf, Bill Ritter, Joel Reese.

CHS Girls Take Charm Course

Girls, mothers and teachers make a total of 57 who are studying the elements of a charming manner and better visual poise. The four week course is taught by Mrs. Mickey McDonald, head of the Powers School in Amarillo.

In the photograph which accompanies the story, make-down is illustrated. Each of the three girls, Suzanne Lemons, Joyce Ricketts and Elaine Downing, demonstrate the degrees of use of make-up.

Suzanne demonstrates how too much make-up can hide a girl's natural beauty. The brows are too heavily made. The hair is slicked back on one side in an extravagant style. The ear clips are much too large and have too much sparkle.

Elaine shows how no make-up can pull down a girl's ego. The lips have no life and the light brows add nothing to her large eyes.

Mrs. McDonald has given Joyce the natural look. The lipstick is

perfectly applied with a brush. The brows are gently arched, and the lips have a sweet touch of color to them. The hair is styled to frame the face.

Girls with light brows should apply in light feathery strokes eyebrow pencil. The eyes are the personality of the face and should have attention drawn to them. The same applies to girls with light eyelashes. Never apply so much eye makeup that you look like you have been dipped in grease. Lipstick should never be applied from a tube. A lipstick brush will aid in covering up imperfect lip lines while the lipstick in a tube often adds to bad features.

A 10-year-old look can be added to a girl with improper use of rouge. For this reason it should never be used unless a teen-ager knows the proper way to apply it.

Make-up should always be used to achieve a radiant, natural look. Teenage girls only need lipstick and eye makeup. For very special occasions powder and foundation may be used. This may include soft-lighted parties and on-stage occasions.

The first unit of the course taught body sculpturing. The girls

did exercises and more exercises for about one hour in the first meeting. Each girl made a solemn promise to exercise a 30 minute period each day. Many are having trouble because of time, energy and forgetfulness.

The third session girls came to class well-groomed. Other members of the class and Mrs. McDonald suggested ways they might improve their grooming. Colors and styles were discussed which would improve the appearance of figure and face.

The last session of the course was held Oct. 28 and 29, and the subject was voice and diction.

Give 'em the purple

Harvest Festival Set for Nov. 23; Charming Queen To Reign at Event

Don your glad rags and be at the CHS Harvest Festival Saturday, Nov. 2, from 8 until 11:30 in the Canyon Grade School all-purpose room.

There will be loads of things to do. Dancing, stunts, skits, table games and of course refreshments.

The crowning of the Harvest Queen cannot be missed. Students have been working the last two

weeks to get petitions of 20 signatures for each candidate for queen. Each petition is to be turned in to Linda Burkett, chairman of the entertainment committee. The Harvest Queen candidates will be voted on sometime during this week, but the identity of the queen will be kept secret until the night of the festival.

The chairmen and members of the different committees have been having meetings, making announcements and posters, to make the party a big success.

The entertainment committee is headed by Linda Burkett. Helping her are Dory Funk, Mary Gladys Marshall, Cathy Morris, Dwayne Ledbetter, Sally White, Sherman McCarter, Bill Cornette and Judy Taylor.

The publicity committee is headed by Sondra Hines and has the job of letting everyone know about the party. A short skit publicized it in assembly October 24. Committee members are Mike Wheeler, Mary Whealy, Patricia Downing, Jimmy Killingsworth, Norma Hathaway, Margaret Johnson, Tommie McClure and Tony Marsalis.

The finance committee decided the best way to raise money was for each class to donate \$20 from the class treasury. This way no one would have to pay at the door or buy refreshments. Chairman Janet Taylor has as her assistants Beverly Henson, Jim Fanning, Suzanne Lemons, Ann Jerrett, Don Thompson, Sue Fain, Marcia Barker and Charles Nester.

Decorations are being planned by Shannon Downing and her committee. Carrying out the fall theme of the festival the all-purpose room will be decorated in bright colors of red, orange, yellow and purple. Committee members are Betsy Callarman, Bonnell Riley, Eddie Boydston, Edwina Hugg, Caroline Glazener, Joe Triplet, Walton Bagley and Nedra Fanning.

Some luscious refreshments are being planned by the refreshment committee with Dwayne Prichard as chairman. Room parents are working with this committee. The members are John Robert Wheelock, Louise Higdon, Joyce Ricketts, Jerry Parker, Jo Hubbard, Robert Ray Henry, Marla Free and Billie Miller.

Sponsors of the different classes have been calling class meetings and informing members of the committee responsibilities. Room parents and class sponsors will be the chaperones at the party.

Flu Makes TD Students Lose

Ninety-five students were absent from CHS Monday, Oct. 14. That number had dwindled to 35 on Oct. 24. Although, due to illness, many students were in and out of classes a majority of those absent were out of school only three to four days.

Many were out for a week or more. It all started with a simple sneeze in the merry month of May. That first oriental sneeze led to an estimated 1,077,000 cases of Asian flu. Health authorities expected further increases with the arrival of cold weather.

The most striking feature of the disease was its ability to spread with lightning rapidity. "On May 17 Manila reported 800 cases; three days later 153,000. In the Philippines there were 1,600,000 sick and approximately 2,000 dead," according to the Reader's Digest.

Of all the viruses those which cause flu are among the trickiest. In some cases the viruses will be light and mild; in another fear-some killers. The sad truth about all flu is that sufficient vaccine for all was not available at the time of the outbreak.

Hot Rod Contest

Hurry! Hurry! Hurry! November 4 is the deadline for those who are entering an essay in the contest on "Do Hot Rod Clubs Make Better Drivers?"

A prize of \$5 will be awarded to the high school student who writes the best essay. A similar prize will be awarded in the junior high school. Awards will be made by the Junior Woman's Book Club of Canyon.

Any student may enter the contest. Essays must be limited to 200-300 words. Essays will be judged on content, clearness, neatness and spelling. They are to be turned in to the instructor of English in each class. The deadline for all essays is noon Monday, Nov. 4.

Continued from Page 1

the ball on the Cowboy 24 and bulled his way up the middle and on across the goal line for the second score. Coffey missed again, but WT led 12-0.

On the next series, the Cowboys came back strong, making 75 yards in 13 plays. Pete Hart bounded over from the four and Dewey Bohling converted to make the score 12-7.

The Buffs weren't dismayed. Taking the kickoff, they moved 72 yards in six plays with Sanders ending the march with a 54-yard run through the left side of the line. He cut from there to the opposite side of the field and crossed the goal. Ratliff converted to make the score 19-7.

As if to prove that their first score was no fluke, the Cowboys took the kickoff and marched 62 yards in eight plays, five of them passes, to score with only 31 seconds left in the half. Hart again provided the score, making it over from the one. Second string quarterback Johnny Jones missed the extra point to make the halftime score 19-13.

In the third quarter, the Buffs were on their own 40 with two yards needed for a first down on fourth down. Electing to gamble, Quarterback Bobby Jones gave the ball to Ratliff who slanted through the line and bulled his way 60-yards to a touchdown. He converted to make the score 26-13.

Later, Don Beck recovered a Cowboy fumble on the H-SU 48 and the Buffs moved to another score in 11 plays. Sanders popped over the goal line from the five, but Ratliff missed the conversion, making the score 32-13 at the end of the third quarter.

Hardin-Simmons got the ball on their 44 in the fourth quarter and began moving, finishing off the drive with a five-yard pass from Ford to Jim Doom.

As the game rushed to a close, the Buffs moved 62 yards in 10 plays to set up the final score on the one. Coffey converted the last extra point to make the final score 39-19.

Statistics of the game were:

	WT	HS
First Downs	18	20
Yards Rushing	342	130
Yards Passing	19	215
Passes Tried	9	33
Completed	2	21
Punts	4	4
Average	38	37.8
Fumbles Lost	1	4
Penalties	6	5
Yardage	45	50

American Traffic Control Impressive Lebanon Woman Tells Sue Hite Club

"The first thing that impressed me when I got to America was the control over traffic," Mrs. A. T. Toomey, who arrived here from Beirut, Lebanon, only 17 days ago, told the Sue Hite Club Monday.

The American traffic laws impressed Mrs. Toomey, she said, because in Lebanon there are more cars than people and no control over traffic which makes it dangerous to even cross the street.

In Lebanon Mrs. Toomey worked for the United States Operation Mission teaching the English language to adults. She has come to America to live with her son, Ned Toomey, instructor of journalism at Amarillo College.

For the club's program on the Near East, Mrs. Toomey gave a general description of Lebanon. She told the women that Lebanon is a very cosmopolitan country because of the influence of many missionaries during the Turkish regime. Because it does have so many nationalities, languages and customs, Lebanon is a hard country to govern, Mrs. Toomey said. Arabic has been accepted as the national language.

The speaker also told the club that American influence is prevalent in Lebanon and that women now enjoy social freedom. In regard to American intervention, Mrs. Toomey said Lebanon was "grateful for American intervention and an evidence of this was the split Lebanon made with other Arabic nations since the Suez crisis."

In a comparison of homes here in America with those in Lebanon, she said the homes in the two countries were similar except that instead of one story or two story houses, a Lebanese lives in a house 17 or 18 stories high.

Mrs. Toomey was introduced by

Mrs. Crews Henry. Hostesses were Mrs. Mitchell Jones and Mrs. Burney Slack. Mrs. R. B. Allen gave the invocation.

Dimmitt Continues Winning Ways With 19-12 Victory Over Canyon

Dimmitt bounced the Canyon Eagles out of any chance for a showing in District 1-AA with a 19-12 win Friday night in Buffalo Stadium. The game was the second district loss for Canyon and the second district win for Dimmitt.

For the first time this season, Canyon's passing attack was more successful than their ground game. The Eagles made a total of 116 yards on the ground and 124 in the air from six completed passes.

Dimmitt scored in the first, third and fourth quarters, with the third quarter touchdown a story-book affair. With only eight seconds left in the quarter, Dimmitt end Gary Cleaver took a Canyon kickoff on his own 27 and raced for the touchdown, scratching a one-touchdown lead picked up by Canyon an eye-wink before.

Dimmitt began scoring in the beginning of the game by capitalizing on an Eagle fumble. Canyon had kicked off to start the game

and Dimmitt had kept the ball for two series of downs before being forced to kick to the end zone. Putting the ball in play on the 20, Ronnie Huyck carried for three yards, and A. L. Pruett fumbled and lost the ball on the line of scrimmage.

Starting from the 23, Dimmitt moved to the 10, but a setback and a clipping penalty moved the ball back to the 23. On third down, Norman Touchstone tossed to Keith Lowe in the end zone for the first score. Norman Nelson chased across the goal line to make the extra point that plagued the Eagles the rest of the night.

The teams finished the first quarter switching ownership of the ball, neither furnishing a serious scoring threat.

As the second quarter began, the Eagles controlled the ball and worked it down to the Dimmitt 28 before losing on downs. Dimmitt was held for no gain on the first two plays, then lost three yards

to the 25. On fourth down, they kicked to the Canyon 28.

From there, the Eagles began a drive that ended in their first score. In 13 plays they had moved 40 yards to the Dimmitt 32. On the next play, third down, Eddie Boydston ran around right end and moved the ball to about the 25, where he was stopped by a Dimmitt tackler. Before hitting the ground, however, Boydston pitched out to Leonard Miller, running further outside, and Miller ran the rest of the way across the goal. Boydston attempted to kick the extra point but was not successful.

The first half ended with no further serious threats.

The Eagles received the ball to start the second half but kicked after making one first down. Dimmitt took over on their own 30 and

began marching to the far end of the field. In 12 plays, they moved as far down as the 17, but Canyon got the ball on downs after spilling Nelson back on the 22.

The Eagles moved the ball to the 28 in three downs, and Pruett kicked to the Dimmitt 40, where the ball was caught by Nelson. But Nelson dropped the ball and the fumble was recovered by Canyon. The Eagles were immediately penalized 15 yards for holding, but the drive began from the Canyon 45. Pruett threw a 23-yard pass to Roy Hunter, a 15-yard pass to Miller, and the Eagles were in scoring position on the 17. In three plays the ball rested on the 18, a one-yard loss.

On fourth down, Pruett threw a pass to Miller, who stepped into

the end zone for the second Canyon score, making the score 12-7 with eight seconds left in the third quarter. Dory Funk's extra point try was no good.

The next play was the heart-breaker for the Eagles. Canyon kicked off following the touchdown and the ball sailed to the Dimmitt 27, where it was pulled out of the air by an end, Gary Cleaver. Running behind skillful blocking, he raced to the end zone 73 yards away. The extra point was not good, and it was the beginning of the fourth quarter when Dimmitt kicked off. The score was 13-12 for Dimmitt.

Canyon ran a series of downs and kicked to the Dimmitt 29. Nelson ran back to the 35, and another march began. In seven plays they had gone to the Canyon

37, an average of nearly four yards per play. On third down, Lowe took the ball on a razzle-dazzler and ran the 37 yards to a touchdown, making the score 19-12 with 6:33 left in the game.

The ball switched hands back and forth as the clock ticked on to end the game. Neither team threatened again.

Statistics of the game were:

	C	D
First Downs	11	14
Rushing Yards	116	224

DOUBLE STAMP DAY - - - TUESDAY

Wayside Holds Homecoming

The third annual Wayside Community homecoming was held Oct. 20 in the Wayside Community Church. Approximately 100 ex-residents of Wayside attended coming from Stillwater, Borger, Amarillo, Canyon, Tulia, Clarendon and from the state of Oklahoma.

A basket lunch was served in the basement at noon, and at 2 p. m. a program honoring students who attended school from 1910 to 1920 was presented in the auditorium. Mrs. E. C. Franklin, Mrs. Leroy Roberts and Mrs. Guy Watson gave the program.

In a business meeting, officers for the homecoming association were elected. President is Henry Hamblen; vice president is Melton McGehee; secretary-treasurer is Aline Adams; and corresponding secretary is Fannie Franklin.

Class agents were also elected. Mrs. Bessie Lane is agent for classes between the year 1892 to 1900; Fannie Franklin, 1900 to 1910; Doris Gillham, 1910 to 1920; Sarah Beth Louder, 1920 to 1930; Clifford Stevens, 1930 to 1940; Jack McGehee, 1940 to 1950; and Patsy Schrib, 1950 to 1958.

Junior FHA Elects Barbara Banks Head

Barbara Banks was elected president of the Junior High Chapter of FHA during the first meeting of the year.

Other officers elected were Nancy Breittling, vice president, Marion Henson, secretary, Cheryl McClure, treasurer, and Ococe Johnson, parliamentarian.

Two social occasions have been planned, one of which will be a Christmas tea for mothers of class members. Regular meetings will be held twice monthly. Programs planned include outside speakers and films.

Mrs. Coystal Stone and boys of Dumas spent the weekend with her parents, Mr. and Mrs. Guy Tabor.

Going to a football game used to be so simple. We grabbed our ticket and a jacket and went. Nowadays it's not so easy.

First, there's the blanket to sit on, or to cover our knees with in case the winds grow chill. It comes in a zipper-type bag with a handle — which makes it easier to carry, but requires stowing during the game.

If we're really comfort-conscious, we also have cushions. Add top-coats for two, a thermos of coffee, field glasses, dark glasses, a camera and maybe a portable radio to keep up with the other games in other places, and we're ready.

Now that traffic is thick, we must leave the house about half an hour before the game. This suits the male of the species right down to a T. He wants to get there in time for the warm-up anyway.

Getting settled takes several minutes. We must stow the thermos, the zipper bags and extra wraps where they won't get kicked around. We must reduce the lap-holding stuff to a minimum, so we can get up quickly for: a) the national anthem, b) the first long run by our own team, c) the school song, d) the visiting team's school song, e) all touchdowns.

We've heard several other frightening suggestions made by idea folks. The woman who sits next to us, for example, has decided she needs a footstool. The man who sits behind us hopes to see the day when electric plugs are installed in each box and telephones made rentable, so busy business men can stay busier.

Did women's taking up sports so avidly change the pace? Or are menfolks getting softer?

Once in awhile, we long for the simpler days when we just grabbed a ticket and a jacket and went.

Wayside News

The Rev. Joe Leatherwood filled his regular appointment with a good homecoming message.

Mrs. Jim Fulton and children, Jimmie, Lee and Mona Lane of Stillwater, Okla., visited last week with relatives and attended the Wayside Homecoming. Mrs. Fulton is the former Romona Hamblen and was raised in this community.

Dr. and Mrs. L. W. Smith of Norfolk, Va., announce the arrival of a daughter born Oct. 20 in the Naval hospital. Mr. and Mrs. W. R. Franklin are the proud grandparents.

Staff Sgt. and Mrs. Robert Gusa and Mike are stationed at Erding, Germany, Air Base. They write that they like it there and it is cold there now. They would like to hear from their friends. The address is Staff Sgt. Robert G. Gusa, 440th FIS, A.T.O. 207, New York, N. Y.

Robert Crow and new bride of Hutcheson, Kans., Mr. and Mrs. Glenn Mahler, Randy and Eddie Buena Vista, Mr. and Mrs. Tom Payne, Shelia, Tim and Johnny of Amarillo were weekend guests in the E. J. Mahler home. Mr. Crow is the brother of Mrs. Mahler.

Mrs. R. C. Petty left Thursday by bus for her home near Goldwaite after visiting her daughter and family, the Charles Kennedys.

Mr. and Mrs. Sammie Mayes, Sammie and Vicki visited relatives in Quitaque last weekend.

Mr. and Mrs. William Payne of Clarendon spent Saturday night in the W. R. Franklin home and attended the homecoming Sunday.

Mr. and Mrs. Dick Orr, Richard and Judy of Panhandle spent last weekend with Mrs. Orr's mother, Mrs. Fannie Stevens.

Mr. and Mrs. W. R. Stockett, Mr. and Mrs. Willie Modisette, Royce, Marian, and Fay were Tulia shoppers last Tuesday.

Mr. and Mrs. William (Sonny) Hamblen and three boys from Britt, Iowa, have recently moved to the W. H. Hamblen home place. Sonny has employment with the Wheat Growers Elevator at Wayside and Happy.

Stork Specials

James Craig is the name Mr. and Mrs. Luther Lawless have selected for their new son, born Monday at Northwest Texas Hospital, Amarillo. The baby weighed 6 lbs. and 4 oz.

Mr. and Mrs. Ray Fullerton and Mr. and Mrs. Curtis Lehnick and boys spent Sunday afternoon in Lefors with Mr. and Mrs. Edward Lehnick and daughter, Debra Lynn.

SOIL CONSERVATION DISTRICT NEWS

Drought alone does not cause severe wind erosion.

Soil blowing begins only when high winds come in contact with loose, unprotected soil. Fields protected with vegetation, living or dead, will not blow severely regardless of how dry it gets, except when nearby blowing fields ruin the protective vegetation.

Most soil blowing starts on poor cropland — land that is too thin or is sandy, or receives so little rainfall it is unsuitable for permanent cultivation. This kind of land should never have been plowed, because it produces profitable crops only during wet years.

All soil blowing does not start on poor cropland.

Soil blowing can begin on good cropland that has been improperly farmed. Or it may start on rangeland that has been severely overgrazed.

When wind erosion, soil blowing, once starts it tends to spread from field to field and from farm to farm.

The wind carries loose particles across field and farm boundaries. Where a soil particle strikes bare ground it blasts loose other particles which, in turn, are swept across the ground surface and

Pleasant-Jo 4-H Discusses Banquet

Plans for a 4-H banquet, which is to be held soon, were discussed by the Pleasant-Jo 4-H Club at a recent meeting. For the program, Mrs. Mona Hildreth discussed good eating habits.

Present were Peggy and Leta Cranmer, Candy Throckmorton, Katherine Winstead and Sharon Cranmer.

Mr. and Mrs. Murray Boston spent Sunday in Lubbock with their son and family, the Bill Bostons.

The Prescription PHARMACY We Fill ANY Doctor's Prescription WEST Side Of The Square CANYON, TEXAS — DIAL 5-2103

cause still further erosion.

Too few farmers and ranchers have been following the long-range program of their soil conservation district to combat wind erosion. The soil blowing from their fields and pastures has greatly damaged crops and land of those who do practice sound soil and water conservation on their land.

There are always a few farmers and ranchers who are really "go in and blowin'." The wind is "blow in" their soil away and they are

"go in" out of business much faster than they think. The tragic thing about such individuals is that they are damaging their neighbors almost as much as themselves.

The supervisors of the Randall-Potter Soil Conservation District, your soil conservation district, urge that you give the following your deepest consideration.

"All the people who farm or ranch in the Randall-Potter Soil Conservation District should adopt good land use, the needed soil and

water conservation practices, and plan for recurring droughts if they are to have a permanent and profitable agriculture."

"The alternative is bigger and worse 'dust bowls' with each succeeding drought. And there will be more droughts, because drought is a normal feature of the climate in this region."

"Live as though you were going to die tomorrow. Farm and ranch as though you were going to live forever."

How Wise To Winterize NOW!

Your winter-wise Shamrock dealer stands ready now to wrap up your car against cold weather ills — deliver a thorough weatherproofing job: Change oil; lubricate; check heater, windshield wipers, generator; clean and anti-freeze the radiator; inspect and service tires and battery.

You'll be pleased with Shamrock quick-starting gasolines — glad to have Shamrock lubricants flow to work FAST!

Fairview Breezes

We had about two inches of snow on the ground Friday morning, the earliest snow this writer can remember having been in this vicinity since 1891.

The Rev. Bill Hall preached two excellent sermons for us Sunday. We were glad to have G. E. Wesley back in church Sunday morning. He has been on the sick list the past month.

Richard Evans has been on the sick list the past week.

Mrs. H. H. Shipman worked for Larol's Cafe in Happy several days the past week.

Bowie Wesley spent Friday night in Happy with his aunt, Mrs. Ella Hext, after the game with Lazbuddie.

Maria and Pete Garcia went to Littlefield Saturday to visit with his sister. They returned Saturday evening.

Mr. and Mrs. J. W. Wesley were in Canyon Thursday on business.

Brother and Mrs. Bill Hall and Paula visited Sunday in the Frank Rogers' home.

Harvesting has been halted all week because of wet weather.

Mr. and Mrs. Richard Evans were in Amarillo Sunday.

Mrs. G. E. Wesley and Lavena Amerson visited in the J. W. Wesley home Sunday afternoon.

Brother and Mrs. Bill Hall visited a short time Sunday afternoon with Mrs. M. F. Evans.

Rain is the subject up to now. We would like very much to see some sunshine.

Almost everyone is ill with colds. There were only six out for church Sunday morning. Services were dismissed Sunday evening as the roads were getting so slippery.

G. E. Wesley is still on the sick list and unable to be out.

C. P. and Frank Rogers have been tuning up G. E. Wesley's combine getting it ready to run when the weather is fit.

The Charles Wilson children were taken to the doctor Friday morning and given shots for colds.

The H. H. Shipman family has been ill with colds.

Mrs. Woodrow Wesley was shopping in Amarillo Friday.

Woodrow Wesley attended the ball game between Happy and Hart in Happy Friday evening.

Gene Shipman was working for his grandad, G. E. Wesley, Saturday.

Mrs. Madge Sutton entertained the home demonstration club Friday afternoon with four members and one visitor present. Mrs. Bill Allen gave an interesting demonstration on painting ceramics. We

Venison A'Plenty

Carl Jennings, left, Doyle Bourn, Bob Costley, Jerry Costley, Calvin Costley and Buff Morris stand among the 24 deer they shot on a hunting trip northwest of Graystone, Colo. It took the six hunters eight days to get their deer.

enjoyed her talk very much.

Mr. and Mrs. J. W. Wesley were in Tulia on business Saturday and they visited Saturday afternoon with the G. E. Wesleys.

Darrell Wilson and a group of his school friends shocked feed for Sonny McNeil Saturday.

Maria and Pete Garcia are shocking feed for Woodrow Wesley.

Leth Patterson has been busy papering her bedrooms.

Bettie Patterson and a girl friend from Canyon visited Saturday night and Sunday with Bettie's parents, the John Pattersons.

Mrs. Georgia Rogers is quite busy taking care of her grandchildren.

Mrs. E. W. Schaeffer has been having the interior of her home repainted.

Mrs. Geneva Sutton was in Happy Friday afternoon for school activities.

Visiting in the H. H. Shipman home Saturday night and Sunday were Mrs. Williams and Rhoda of Hereford.

Mr. and Mrs. Charley Kenny of Texola visited with their daughter and son-in-law, Mr. and Mrs. Lawrence Miller, last week.

Mrs. Kenny and Mrs. Miller visited friends from California one evening last week at the Joe Rogers home.

Visitors in the G. E. Wesley home Sunday were Mr. and Mrs. J. D. Prosser and their three sons,

Centerpieces Is Theme for Program

Centerpieces for each month of the year was the theme of the program for the Pleasantview Home Demonstration Club which met with Mrs. Earl Burtz Oct. 23. Centerpieces were made and displayed by club members, and Mrs. R. A. Hodges received the prize for her decoration of a bride's table for the month of June.

Others who made centerpieces were Mrs. Ray Welch, who used a Valentine theme for February; Mrs. Jack Howell, Belles of Ireland, March; Mrs. B. L. Hufnagle, spring flowers, April; Mrs. Roy Henderson, Halloween buffet, October; Mrs. Hodges, Thanksgiving buffet, November; Mrs. John Jennings, Christmas decorations, December.

Mrs. Earl Burtz showed centerpieces for May, July, August and September using themes of a spring luncheon, a picnic, a little girl's birthday party and a family dinner, respectively.

Roll call was answered by "My favorite decoration." Mrs. Hufnagle conducted a recreation period, and refreshments of pie and coffee were served.

Guests at the meeting were Mrs.

Mr. and Mrs. Junior Lowery and three of their daughters of Amarillo, and Mr. and Mrs. Frank Rogers.

Morris Abbott, Mrs. Mae Johnson, Mrs. Barker and Mrs. Mona Hildreth. Members present were Mrs. Hufnagle, Mrs. Howell, Mrs. Welch, Mrs. Hodges, Mrs. Jennings and Mrs. Burtz.

The next meeting will be with Mrs. Roy Henderson Nov. 13.

Umbarger News

Mr. and Mrs. Elroy Artho and family visited with Mr. and Mrs. John Irlbeck in Canyon.

Mr. and Mrs. Alvin Friemel visited with the Clarence Beckmans.

Visitors in the Henry Gerber home were Mr. and Mrs. Rudolph Friemel, Mr. and Mrs. Ray Gerber and Otto Skarke.

Mr. and Mrs. Leo Artho and family visited in the John Wieck home.

Mr. and Mrs. Joe Artho and David were visitors in the Raymond Batenhorst home.

Mr. and Mrs. Eddie Wieck and family visited in the Louie Wieck home.

Mr. and Mrs. Gene Fangman and family visited in the Paul Artho home.

Mr. and Mrs. J. W. O'Dell and family visited in the Max Hoffman home.

UCW To Observe Community Day

The United Church Women of Canyon will observe World Community Day Nov. 1 with a luncheon in the basement of the First Methodist Church at 12:15 p. m., to be followed by a business meeting and program in the church parlor at 1 p. m.

"Bread, Freedom, Dignity of Man" is the theme of the program which will be presented by Mrs. T. V. Reeves, speaker for the afternoon. Mrs. Rae M. Walters will preside during the program, and Mrs. W. A. Miller will have charge of the business meeting. New officers for the United Church Women are to be installed by Mrs. George Hill, district president.

Each participating church group is to bring a box of warm clothing for dedication as the project for this meeting is "Parcels for Peace." All types of warm clothing, denim

cloth for clothes, household linens, materials and blankets, both full size and children's blankets may be included in the boxes. Children are encouraged to bring clothes for boys and girls in other lands. Try Canyon News Want Ads

CHANGE TO SHAMROCK 10 W-30 MOTOR OIL NOW AND PROTECT THE LIFE OF YOUR CAR'S ENGINE AND BATTERY

The development of Shamrock 10W-30 Motor Oil is based on the fact that the typical passenger car engine operates most of its useful life in the temperature zone between the cold start and normal operating temperatures.

All oils thicken as temperature decreases. The difference between Shamrock 10W-30 and conventional oil is that it thickens less at low temperature. The effect on your car's performance is important.

When you change to Shamrock 10W-30, the improvements you'll notice immediately are: (1) that even on the coldest mornings the engine will turn over quickly and easily, and (2) a marked increase in gasoline mileage.

These advantages are the most obvious, but not necessarily the most important. Frictional wear in the engine takes place at a very high rate during the first few strokes when starting an engine with little or no lubricant on the cylinder walls. 10W-30 reduces this wear, flowing quickly... replenishing the oil film. At high temperatures a thicker lubricant does a better job of keeping metal surfaces apart. Accordingly, 10W-30 being thick

at high temperatures gives your engine full protection at this end of the temperature range, too.

With Shamrock 10W-30 in the crankcase you will: (1) extend the life of your car's engine, (2) extend the life of your battery, (3) increase gasoline mileage and (4) reduce the octane requirement. We don't claim miracles for it, but you probably will.

QUALITY YOU CAN MEASURE BY YOUR CAR'S PERFORMANCE
